PROFESSIONAL SUMMARY

Broadcast systems and electronics engineer with 20+ years of hands-on experience across live television infrastructure, satellite broadcast platforms, and industrial R&D. Skilled in installing, maintaining, and troubleshooting complex broadcast, networking, and electronic systems in high-availability environments. Strong track record of board-level repair, systems integration, and cross-functional collaboration between engineering, manufacturing, and operations teams. CCNA-certified with deep familiarity across the broadcast production chain, from studio and field equipment to network transport and R&D product validation.

KEY SKILLS

- Broadcast Systems: AVID Unity, Kahuna Switchers, NEXIO, Louth Automation, Studio & Field Production Equipment
- Networking: Cisco CCNA, IOS/IPS Tools, Cisco Network Assistant, Spectrum & Signal Analysis
- Instrumentation: Tektronix Oscilloscopes, Neutrik & Digital Audio Analyzers, Multimeters
- Hardware & Repair: Board-Level Diagnostics, SMD Soldering & Rework, Camera & Audio Console Maintenance
- Software & Tools: SAP, Siebel, AutoCAD, Visio, Photoshop, MS Office

PROFESSIONAL EXPERIENCE

Visual Inspection Technician – Product Engineering & Industrialization R&D

Dec 2022 – Present

Intracom Telecom, Athens

- Perform visual and functional inspections of electronic and telecommunications products to support R&D validation and quality standards.
- Partner with design and manufacturing teams to identify, document, and resolve product non-conformities.
- Maintain and calibrate inspection tooling and documentation to standardize production quality processes.

Head-End Engineer Support

Dec 2020 – Nov 2022

COSMOTE TV / OTE Group, Athens

- Supported live broadcast and satellite head-end systems underpinning high-availability television services.
- Assisted with platform upgrades and configuration changes across core broadcast infrastructure.
- Coordinated with cross-functional technical teams to maintain uninterrupted service delivery.

Management Technical Support

Nov 2018 – Nov 2020

COSMOTE TV / OTE Group, Athens

- Managed installation, configuration, and maintenance of satellite TV and internet broadcasting systems.
- Diagnosed and resolved broadcast signal and equipment faults under time-sensitive, live-service conditions.
- Prepared technical documentation and status reporting for senior management and engineering teams.

Technical Sales Engineer

Apr 2018 – Oct 2018

AMY Digital Video, Athens

- Advised clients on broadcast and streaming system design, translating technical requirements into solutions.
- Delivered pre-sales and post-sales technical support that improved client satisfaction and product adoption.

Electronics Engineering Technician

Jul 2000 – Dec 2019

MEGA Channel (Teletipos S.A.), Athens

- Installed and maintained studio and field broadcast systems, including Sony cameras, Studer mixers, AVID editors, NEXIO servers, Louth automation, and Cisco networking equipment.
- Carried out board-level electronic repairs using oscilloscopes, multimeters, rework stations, and signal analyzers.

- Safeguarded uninterrupted broadcast operations through proactive maintenance and rapid fault isolation.

Electronics Technician

Oct 1999 – Jul 2000

Germanos S.A., Athens

- Repaired mobile phones, UPS units, and consumer electronics.
- Diagnosed faults in battery packs and circuit-level components.

Electronics Mechanic

Nov 1998 – Oct 1999

Medical System Ltd., Athens

- Installed and maintained medical imaging systems (CT, X-Ray) from Siemens, Philips, and GE.
- Repaired and calibrated circuit boards, motors, and control units.

EDUCATION & CERTIFICATIONS

- Diploma in Radio & Television Electroacoustic Engineering – IEK Manola, Athens (1995)
- Cisco CCNA Certification – BCA College of Athens (2010)
- AVID Unity Training – Pinewood Studios, Slough, UK

LANGUAGES

- Greek – Native
- English – Intermediate (B1)
